ACS Data Users Conference:
May 14-15, 2019

SCOPE AND OBJECTIVES

The 2019 American Community Survey (ACS) Data Users Conference will bring together ACS data users and staff from the U.S. Census Bureau to increase understanding of the value and utility of ACS data and to promote information sharing among data users about key ACS data issues and applications. The conference will include:

- Contributed presentations by ACS data users
- Invited sessions
- Breakout sessions
- Informal meet-ups or roundtable discussions (topic-based)
- Lightning session (NEW!)
- Opportunities for networking

Registration for the conference will be **free** for all participants. We are inviting abstracts on any topic relating to ACS data, but we are especially interested in presentations focused on:

- Innovations in visualizing/mapping ACS data
- Accuracy of ACS data: sampling and nonsampling issues
- Utility of the ACS for private-sector applications
- Combining ACS with administrative/survey data
- ACS estimates for small geographic and rural areas: challenges and solutions
- ACS methods and survey design
- Measuring change over time with ACS data
- Aggregating ACS data and creating effective user-defined geographic areas
- Presenting ACS data: practical guidelines for data users
