(Space is limited and registration is on a first come, first served basis)

Join us for the 2017 ACS Data Users Conference in Alexandria, VA! We have put together an exciting program that brings together more than 50 contributed presentations by ACS data users and an invited Plenary Session featuring Census Bureau senior executives, including John H. Thompson, Director of the U.S. Census Bureau.

There is no registration fee for the conference but participants are responsible for covering their own expenses, including travel, hotel, and meals. The deadline for registration is Friday May 5th.

Conference Sessions

- Assessing Health Insurance Estimates with ACS Data
- Producing ACS Data Profiles for States and Local Communities
- Preliminary Results from the 2016 ACS Content Test
- Using the ACS for Model-Based Estimates
- Comparing or Combining ACS Data with Other Data Sources
- Using the ACS to Monitor Public Health
- Impact of ACS Methods/Design on Data Quality
- Best Practices for Mapping ACS Data
- Case Studies: Data Visualization Tools
- Using ACS Data in the Classroom
- ACS Data for Tribal Areas and Rural Communities
- Tools (Novice users)
- Tools (Advanced users)
- Applications of ACS Data for Estimates and Forecasts
- Applications of ACS/CTPP Data for Transportation and Planning
