Collections of Geographies: Where Are the Checkboxes to Select All Geos in a List?

More checkboxes coming for 2018 ACS 5-year release in December. In the meantime:

- Use maps on data.census.gov to select individual geographies or small groupings
- Use FTP sites or API
- Use American FactFinder to get data for collections of geographies from 2017 ACS 5-year release until we build the checkbox on data.census.gov

Example: “All census tracts in Utah”

Print Functionality and PDF Downloads

We hope to be able to build additional functionality on data.census.gov in the future. In the meantime:

Try right click options to get a table view in Excel

- Copy cells
- Copy cells with header
- Export entire table: Small tables less than 400 rows by 400 columns

Use filters without codes to access the standard set of tables

example: ACS Detailed Tables, Data Profiles; Decennial Census SF 1, 116th Congressional District SF, etc.

Use filters with codes to access iterated tables for your population group:

- ACS 1-Year Selected Population Profiles
- Decennial SF 2
- ACS 5-Year Selected Population Tables and AIAN Tables (coming soon)
- Decennial Census SF 4 (coming soon)

How Do I Get Totals for a Detailed Population Group

<input type="checkbox"/> Populations and People	<input checked="" type="checkbox"/> Ancestry
<input type="checkbox"/> Age and Sex	<input type="checkbox"/> -A0 - All available ancestries

If you're only interested in totals (not characteristics) for a detailed population group such as Albanian ancestry, don't forget to try searching the standard tables by clicking a higher-level checkbox without a code

Tips:

- Totals for some detailed population groups are included in the standard tables
- In some cases, iterated tables may have higher population thresholds or less recent data so you may want to check across both products
 - Example: To get totals for Albanian, try one search with "Ancestry" and another search with "502 – Albanian (100)"
